

CANDY Confused

Pills and candy can look, smell, and even taste alike.

Every year, approximately

35,000

young children end up in the emergency room after getting into medicines, vitamins, or supplements left within their reach.

That's nearly 4 school busloads of children per day!

Make sure your kids don't accidentally get into medicine thinking that it's candy.

GUMMI BEAR
or
MULTIVITAMIN?

ALTOID MINT
or
ASPIRIN?

SWEETART
or
ANTACID?

M&M
or
PSEUDOEPHEDRINE?

GOOD N' PLENTY
or
IBUPROFEN?

Store medicine

UP AND AWAY

and out of sight of young children, even between doses.

NEVER

refer to medicine as candy when giving to your child.

Nearly **1 IN 5** grandparents store their OTC medicines in easy-access places.

Remind grandma and grandpa to store medicines up and away, too, even between doses!

In case of an

ACCIDENT,

call Poison Help 24/7 at 1-800-222-1222.

Save the number in your phone so you have it ready in an emergency.
